**Ethos**

Our ethos is rooted in fostering a nurturing and inclusive environment where every student can thrive and reach their full potential. We are committed to providing a holistic education that not only focuses on academic excellence but also on personal growth, cultural awareness, and global citizenship.

The mission of the college is to provide personalised learning, through small group and individual tutoring, to support those young people aiming mainly to go onto university courses who would not usually achieve this because of educational, linguistic, medical or social barriers which have caused them to underachieve in less-than-optimal circumstances: we aim to help students move from a 'felt minus' to a 'felt plus'. We believe in the transformative power of language and welcome student from around the world to benefit from the educational and cultural opportunities that the city of Bath has to offer.
